# Identifying Angles Worksheet 3
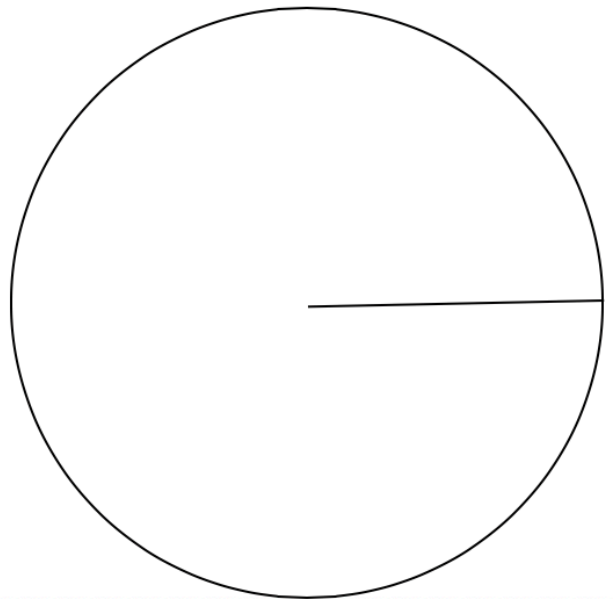

Draw the angles:

1. Right Angle

3. Obtuse Angle

2. Acute Angle

4. Reflex Angle

5. Straight Angle

7. Draw vertical angles:

6. Complementary angle

8. Draw complementary angles:

9. Draw supplementary angles:

10. What is the difference between supplementary and complementary angles?

11. What is the difference between reflex and obtuse angles?

12. What is the difference between acute and right angles?

13. The two angles are 128° and 52°, are they supplementary or complementary angles?

14. The two angles are 120°and 60°, are they supplementary or complementary angles ?

15. The two angles are 27° and 63°, are they supplementary or complementary angles?

16. The 65° and 25°, are they supplementary or complementary angles?
